VISION

The Barossa Bushgardens is 7ha of community land dedicated to the conservation of native vegetation from the Barossa region.

MISSION

The Barossa Bushgardens

- maintains models of ecosystems of the Barossa region;
- shares knowledge and practical skills for the enhancement of native ecosystems in the region;
- partners with the wider community in aspects of environmental protection and sustainable living
- collects and propagates plants native to this bioregion; and
- encourages the adoption of Barossa plants in gardens and landscaping.

We welcome volunteers to help in the Nursery, the Gardens or with events and workshops.

A tax deductible donation of \$10.00 pa covers family membership and helps support the great work of our volunteers. We keep you informed of news and events i.e. Plant Sales, Open Days and FOBBG meetings.

Thank you from the Barossa Bushgardens
